***ACTIONS PER PANEL**

The caseload statistics for the courts of appeals are presented as "actions per panel" rather than according to the "actions per judgeship" profile used for the district courts. Actions per panel provide a more accurate indication of the caseload of an individual judge, since appeals cases are generally handled by panels of three judges rather than by single judges.

**CIRCUIT'S
NUMERICAL
STANDINGS**

The 12 regional courts of appeals have been arranged in a ranked order with respect to the statistical indices of caseload or performance found on the profile. This shows where the caseload of an individual court of appeals stands in relation to those of all other circuit courts of appeals.
