

THE RESOLUTION EXPERTS®

May 1, 2007

The following is a statement from JAMS, The Resolution Experts:

JAMS is in agreement with Justice Alito's recent congressional testimony and supports a long overdue increase in federal judicial pay. An independent and stable judiciary is essential to maintaining the strength of our country's judicial system. JAMS is proud to have several distinguished retired federal judges on our panel, and it is important to note that all Article 3 judges who have joined JAMS, have done so after serving full terms of public service and reaching full retirement.
