RE: Misconduct Petition in the matter of Judicial Complaint No. 10-18-90062

I hereby petition the judicial council for review of the dismissal order relative to my October 2018 judicial complaint 10-18-90062.

My petition request in this matter arises from the dismissal order associated with my October 2018 complaint that was filed against circuit court Judge Brett M. Kavanaugh. Pursuant to the rules defined in the Judicial Conduct and Disability act, my complaint as to Brett Kavanaugh's misconduct at the Senate confirmation hearings included his inappropriate partisan statements that demonstrated bias and a clear lack of judicial temperament as well as his disrespect for members of the Senate Judiciary Committee.

I am seeking review of the dismissal order on the basis of "intervening events" related to this complaint.

At the time of the complaint of misconduct, Brett Kavanaugh was a circuit court judge and thus, his conduct was governed by the rule of the Judicial Conduct and Disability act. That the court(s) review of the complaint took place after the subsequent appointment of Brett Kavanaugh to a court whose conduct is not covered by the specific act contained in the complaint, should not negate a review of the Brett Kavanaugh's judicial misconduct as displayed in September 2018.

As afforded in Rule 18 in the Rules for Judicial-Conduct and Judicial-Disability Proceedings, I am hereby seeking a review of the dismissal order.
