Note: Section 101 of the U.S. Bankruptcy Code defines consumer (nonbusiness) debt as that incurred by an individual primarily for a personal, family, or household purpose. If the debtor is a corporation or partnership, or if debt related to operation of a business predominates, the nature of the debt is business.

¹ A case and its data are included only when all data on income and expenses are provided by the debtor(s) for the case. Data may not be included if the debtor(s) provided incomplete schedules. Data exclude reopenings. Cases transferred interdistrict are counted only for the originating district.

² Referred to in 28 U.S.C. 159(c)(3)(C) as "the aggregate amount of debt discharged in cases filed during the reporting period, determined as the difference between the total amount of debt and obligations of a debtor reported on the schedules and the amount of such debt reported in categories which are predominantly nondischargeable."
